SUMMARY

Aspiring Data Science professional with hands-on experience in Python, SQL, Power BI, and Machine Learning. Skilled in data analysis, visualization, and business intelligence. Completed internships in AI & Data Science, working on predictive models, dashboards, and data workflows. Passionate about solving real-world problems using data-driven insights.

WORK EXPERIENCE

Conversational Data Analysis with LLMs – Virtual Internship

AICTE & Vodafone Idea (VOIS) | Edunet Foundation

Sept 2025 – Oct 2025

- Completed a virtual internship on Conversational Data Analysis using Large Language Models(LLMs) under the VOIS for Tech University Engagement Program.
- Gained hands-on experience in analyzing conversational datasets and understanding LLM workflows.
- Learned industry practices for developing AI-powered conversational systems and generating data-driven insights.

AI & Green Technology Virtual Internship

Jan 2025 - Feb 2025

AICTE & Edunet Foundation | Shell

- Conducted Exhaustive Analysis of Indian Agriculture using Power BI dashboards.
- Explored crop trends, yield patterns, and state-wise production across seasons.
- Used DAX, slicers, and visual studio to make agriculture data easily understandable.

AI, ML, Data Science Internship

Mar 2024 - May 2024

Blackbuck Engineers | IIDT

- Worked on Supermarket Sales Analysis using Python and Pandas for EDA and insights.
 - Cleaned and visualized data to study customer behaviour, product trends, and peak sales.
 - Built dashboards and applied statistical methods to support retail decision-making.
-

EDUCATION

Bachelor of Technology in Artificial Intelligence & Data Science

Dindigul, India

- SSM Institute of Engineering and Technology | 2022–Present | CGPA:8.27

Higher Secondary Certificate (HSC)

Dindigul, India

- SMBM Matriculation Higher Secondary School | 2020–2022 | 85%

Higher Secondary Certificate (HSC)

Dindigul, India

- SMBM Matriculation Higher Secondary School | 2020 | 87%
-

CERTIFICATIONS

- Data Science& Analytics (HP Foundation) – March 2025
- Gen AI: Prompt Engineering (IBM) – February 2025
- Artificial Intelligence (Infosys Springboard) - November 2024
- HTML, CSS, JavaScript, MongoDB (Codetantra) - October 2024

PROJECTS

SOULSPACE – Digital Mental Health and Psychological Support System

- Developed an AI-based mental wellness web application to support students' emotional well-being.
- Implemented chat-based self-assessment using NLP and sentiment analysis to understand user emotions.
- Integrated breathing exercises, sound therapy, and relaxation tools to help reduce stress.
- Created interactive visualizations to track mood patterns and emotional trends over time.
- Built using Python, Streamlit, MongoDB, Firebase, and OpenAI API.

Personal Voice Assistant

- Designed a Python voice assistant leveraging AI libraries for speech recognition and automation.
- Enabled smart features like weather forecasting via API and browser control through voice commands
- Showcased practical use of AI in real-time task automation and user assistance.

Exhaustive Analysis of Indian Agriculture using Power BI

- Created an interactive dashboard analyzing crop production across Indian states.
 - Used DAX and slicers to explore seasonal, regional, and yield trends.
 - Enabled stakeholders to gain insights into agricultural performance.
-

SKILLS

- Programming Languages: Python (NumPy, Pandas, Matplotlib, Seaborn, Streamlit)
- Business Intelligence Tools: Power BI
- Database Management: MongoDB
- Automation & Cloud: RPA (UI Path)
- Web Technologies: HTML
- Languages: English, Tamil ,Japanese
